November Meeting

We were treated to one of Granville's excellent demonstrations before he returns to New Zealand. His subject was a segmented rim bowl and he covered all the methods he uses to produce these attractive items. Thank you Granville.

The meeting was informed that nominations for the Committee are now closed (surprisingly it looks like the same as this year's).

Peter Edwards showed us a problem he had been presented with. How to repair a (very) old bowl that had sentimental value. Good luck with that Peter.

Dennis informed the meeting about traffic problems for anyone going to the Harrogate Show this weekend. Plan your journey carefully.

Questionnaires were completed and the Committee will take these into account when arranging next year's calendar.

Competition Results

Subject Toy Judged by Ian Longley

A Class 1st Norman Sales 2nd Bill Kitchin

B Class No entries

December Meeting

This will be the Annual General Meeting followed by Pie and Peas and a Tool Auction (see below)

Tea Brewers – The Committee (as if we have nothing else to do)

Competition – A Christmas Decoration

Tool Auction

We will only be accepting items that are connected with woodturning and woodworking, so no gardening things or other non related stuff. If you have anything for the Auction it **MUST** be presented **BEFORE 7.30**. Bring plenty of money.

Joke of the month

A man and his wife went to the river, he to fish and she to read a book. After some time the man went into the bushes to answer the call of nature. Up comes the river bailiff and says to the woman "This is a private river so I will have to report you for fishing without a licence. She replies that she is reading a book and not fishing. "Maybe so but you have all the tackle so I will report you" replies the bailiff. "You do that and I will report you for rape" said the woman. The bailiff was astonished and said "But I haven't touched you". "Maybe not but you have all the tackle".

You Tube

Turning worth looking at:

Mayuko Wood Turning – Segmented(?) turning. Some spectacular pieces.

Wood Workshop – Weird but effective.

DoskiMiski – Don't try some of these at home.

Forlorn Request

I am always looking for items for the newsletter – anything
