Subscriptions are now due

Only paid up members will receive future Newsletters

March meeting

Unfortunately Peter Hudson was unable to demonstrate his goblet with captive ring. Norman Sales stepped into the breach and turned a rice bowl using his carbide tipped tools. Thank you Norman. Jean Lythgoe showed us the new club badges and these will soon be available.

Competition Results

| Subject | Open | Judged by | Bill Kitchin |
|---------|-----------------------------|-----------------|---------------|
| A Class | 1 st Gary Brown | 2 nd | Norman Sales |
| B Class | 1 st Ian Longley | 2 nd | Linda Longley |

Joke of the month

I tried having my mother's phone disconnected, but the customer service rep told me that since the account was in my dad's name, he'd have to be the one to put in the request. The fact that he'd been dead for 40 years didn't change her mind. Then a solution hit me: "If I stop paying the bill, you can turn off the service, right?" "Well, yes," she said reluctantly. "But that would ruin his credit rating."

My Shed/Workshop/Studio

I'm now in the process of transferring all my stuff from the storage unit. Once again, what looked like a big space now doesn't seem that big. I never realised how much stuff I have.

You Tube

Nothing to do with woodturning but have a look at 'Cutting Edge Engineering Australia'. This one man operation has lathes and milling machines you can't believe to repair parts for big construction vehicles.

Forlorn Request

I am always looking for items for the newsletter – anything
